Aurifil Spring Block

Using your favorite method, create 8 pinwheel blocks that measure 3.5" square before sewing.

Each half square triangle is 2" x 2" before you sew them into a pinwheel.

Note - There is an interesting pinwheel video at [Http://www.youtube.com/watch?v=ekYpJzHoW6E](http://www.youtube.com/watch?v=ekYpJzHoW6E) They use precut squares. Pat has this at her free pattern page too <http://www.patsloan.com>

After you create your 8 pinwheel blocks, arrange them in an order that is pleasing to you and sew into a quilt block like this!

Easy Peasy and you're done
